- Blogging
- Digital Marketing.
- Studying Everyday to improve myself in the industry.
- Social Media Accounts Managment.

### EDUCATION

#### Ordinary Level At Mukai High School

Harare

Jan 2010 — Nov 2014

## ACCOMPLISHMENTS

---

### HTML, CSS & JAVASCRIPT

- I have created my First HTML project, it was a countdown project with some necessary information for the upcoming church (YOUTH) event. It is a HTML file because I wanted it to work offline for the benefit of everyone.
- My second project was similar to the first one but with some improvements, in UI & UX and it was of a different event
- I created an increment and save button using Javascript
- Currently I'm working on an E-commerce website to be used by the community for easy sell and buy.

### CORELDRAW

- I have created a several number of Company Profiles, Resumes, Business Cards, Magazines Logos, Flyers etc.

### WEBSITES

- As a beginner I managed to use available website templates to edit and design what exactly my clients were looking for. I managed to complete 4+ website.
